

Agenda
Village of Glen Ellyn
Zoning Board of Appeals
Regular Meeting
Tuesday, November 13, 2018
7:00 PM

Glen Ellyn Civic Center, Galligan Board Room

Individuals with disabilities who plan to attend the hearing and who require certain accommodations in order to allow them to observe and participate, or who have questions regarding the accessibility of the meeting or facilities, are requested to contact the Village at least 24 hours before the meeting.

A. Call to Order

B. Approval of Draft Minutes from the September 11, 2018 Zoning Board of Appeals Meeting

1. September 11, 2018 Zoning Board of Appeals Meeting Minutes

C. Agenda Item 1N480 Swift Road - Fence Height Variation

1. Public Hearing to consider a zoning variation request to allow the construction of a fence as tall as 9 feet in some areas, to be located on the property at 1N480 Swift Road.

D. Agenda Item 689 Lake Road - Rear Yard Variation

1. Public Hearing to consider a zoning variation request to allow the construction of an addition over an attached garage that is non-conforming to the rear yard setback.

E. Village Board Trustee Report

F. Staff Report

1. Next scheduled ZBA meeting(s)

G. Adjournment

This note provides you with information regarding what happens to a petition after it has appeared before the Zoning Board of Appeals. After the Board makes a recommendation on a petition, a report of the meeting is prepared. Then, the petition, along with the summary report and all pertinent material, is scheduled for consideration by the Village Board. The Village Board meets on the second and fourth Mondays of each month at 7:00 p.m. in a meeting room on the third floor of the Civic Center, 535 Duane Street. Questions regarding petitions scheduled for review by the Village Board should be directed to the Planning and Development Department at (630) 547-5250.

DRAFT MINUTES
ZONING BOARD OF APPEALS
MINUTES
SEPTEMBER 11, 2018

The meeting was called to order by Chairperson Greg Constantino at 7:00 p.m. ZBA Members Matt Jones, Steve Lucchesi, John Micheli, Chip Miller, Tom Whalls and ZBA Student Intern Maddie Greenleaf were present. ZBA Member Reed Panther was excused. Also present were Village Planner Kelly Purvis, Recording Secretary Debbie Solomon and Village Trustee Mark Senak.

Chairperson Constantino explained the procedures of the Zoning Board of Appeals (ZBA).

MINUTES

ZBA Member Micheli moved, seconded by ZBA Member Jones, to approve the minutes of the June 12, 2018 meeting. The motion carried unanimously with a voice vote.

On the agenda was a public hearing regarding the property at 680 Grand Avenue.

Chairperson Constantino stated all members of the Zoning Board of Appeals have visited the property and are aware of the proposed plans.

A motion was made by ZBA Member Micheli and seconded by ZBA Member Whalls to open the public hearing for 680 Grand Avenue at 7:04 p.m. The motion carried unanimously with a voice vote.

PUBLIC HEARING – 864 BEMIS ROAD

MIKE AND CHRISSY CRNKOVIC ARE REQUESTING APPROVAL FROM THE GLEN ELLYN ZONING CODE AS FOLLOWS TO ALLOW A SECOND DRIVEWAY APPROACH ON A LOT THAT DOES NOT HAVE A WIDTH OF 132 FEET FOR THE PROPERTY LOCATED AT 680 GRAND AVENUE: 1. SECTION 10-5-11 (B) 3 TO ALLOW AN EXISTING DRIVEWAY APPROACH TO REMAIN ON THE SUBJECT PROPERTY, WHICH IS NOT AT LEAST 132 FEET WIDE, AFTER A SECONDARY APPROACH HAS BEEN CONSTRUCTED. 2. ANY OTHER ZONING RELIEF NECESSARY TO CONSTRUCT THE PROJECT AS DEPICTED ON THE PLANS PRESENTED OR REVISED AT THE PUBLIC HEARING OR AT A PUBLIC MEETING OF THE VILLAGE BOARD.

(Mike and Chrissy Crnkovic, owners of the property at 680 Grand Avenue)

Staff Presentation

Village Planner Kelly Purvis was present to speak regarding the proposed variation request and was sworn in. Village Planner Purvis stated petitioners Mike and Chrissy Crnkovic are the owners of the property at 680 Grand Avenue.

Village Planner Purvis stated the petitioners are proposing variations from the Glen Ellyn Zoning Code to allow a second driveway approach as follows:

1. Section 10-5-11(B)3 to allow an existing driveway approach to remain on the subject property, which is not at least 132 feet wide, after a secondary approach has been constructed; and
2. Any other zoning relief necessary to construct the project as depicted on the plans presented or revised at the public hearing or at a public meeting of the Village Board.

Village Planner Purvis stated that the subject property is located in the R2 Zoning District on the corner of Essex Road and Grand Avenue just north of Lake Ellyn Park. Village Planner Purvis stated the zoning and land use immediately surrounding the subject property is R2 Single Family Residential and CR Conservation Recreation.

Village Planner Purvis stated notice of the public hearing was published in the August 23, 2018 edition of the Daily Herald, mailed to property owners within 250 feet of the subject property, and a placard was placed on the property.

Village Planner Purvis stated Village records indicate that there were no prior variations granted for this property, and Village records indicate that the following permits have been issued for this property: SF Residence in 1935, HVAC in 1985 and Garage, Patio, and Interior Remodel in 2018.

Village Planner Purvis showed an exterior picture of the property and stated along with an interior remodel and the construction of a new patio, Mike and Chrissy Crnkovic have constructed a detached garage and a new driveway behind their home, which is accessible from Essex Road. Village Planner Purvis stated they are proposing to leave an existing driveway in place (off of Grand Avenue), which used to provide access to the attached one-car garage on the front of the home. Village Planner Purvis stated as part of the interior remodel, the one-car garage was converted into habitable space; however, the property owners would like a place for guests to park that would allow them to enter the home from the front entrance. Village Planner Purvis stated the petitioners have suggested that it may be dangerous for guests to park in the street on Grand Avenue, at the front of the home, since it is on a corner with less

visibility. Village Planner Purvis stated Village Code will allow 2 driveway approaches when a lot is 132 feet wide; however, the property at 680 Grand Avenue has a lot width of 100 feet. Village Planner Purvis stated in order for the second driveway approach to remain, the petitioners will need to be granted a variation.

Village Planner Purvis stated a letter was received by the Planning & Development Department on September 4, 2018 objecting to the variation request. Village Planner Purvis stated an adjacent property owner is concerned that the existing driveway off of Grand Avenue will be extended into the backyard, which he feels would affect the character of the neighborhood. Village Planner Purvis stated this letter was included in the ZBA Members' packets.

Questions from the Zoning Board of Appeals

ZBA Member Miller asked if a water survey was done due to the elevation change in the property. Village Planner Purvis stated that the square footage of the driveway and garage would trigger a stormwater review. Village Planner Purvis stated that a secondary review (including the second apron) would not be required since no additional land is being disturbed as they are only asking to leave the existing driveway.

Chairperson Constantino asked if the petitioners could have a secondary driveway if the frontage on Grand Avenue was 132 feet to which Village Planner Purvis stated they could.

Petitioners' Presentation

Petitioner Mike Crnkovic was sworn in. Mr. Crnkovic stated he and his wife have been in and out of Glen Ellyn since 1989. Mr. Crnkovic stated they are happy with the location of the property and will live in the home for many years. Mr. Crnkovic stated the home needed a good deal of work.

Jamie Simoneit, Principal Architect with z+o Architecture and Interiors, was sworn in. Mr. Simoneit stated the current garage door is only 6 feet, 6 inches tall so it does not work and is obsolete. Mr. Simoneit stated they swung the garage project around to the side of the home as they would have need to take a chunk out of the hill to create an underground garage that would work. Mr. Simoneit stated they could have torn down the home, but decided to work with the property's topography and constraints instead. Mr. Simoneit stated the project is under construction, and they have had the driveway engineered two different ways, and the drainage and stormwater issues have been approved by DuPage County for both options. Mr. Simoneit stated they filed their second option which would allow a set of stairs down and an apron to remain. Mr. Simoneit stated the last 30 feet of the existing driveway is very steep, but they will eliminate this as they return the hill to its natural state. Mr. Simoneit stated they could not do a driveway around the back of the home as it would be too steep. Mr. Simoneit stated

the letter from the concerned neighbor involves the door on the back of the garage which is only for getting lawn-mowing equipment out and not to add additional driveway.

Mr. Simoneit showed a picture of the property's front elevation and stated the steepness and grade of the property necessitate these changes. Mr. Simoneit stated they will be eliminating the 65-foot run of stairs to the front door, and the intent would be that guests could park in the front of the home and still be able to go in the front door with the re-engineered steps.

Mr. Simoneit showed a rendering of the proposed front elevation and stated they would be eliminating over 51 linear feet of sidewalk in the front and keeping the apron would allow a gentle slope. Mr. Simoneit stated on-street parking is dangerous due to the curve which is why they want to keep the existing apron for guests to park on.

Additional Questions from the Zoning Board of Appeals

Chairperson Constantino asked if this project has been discussed with the neighbors. Mr. Simoneit stated they have not as they have not seen the concerned neighbor. Mr. Simoneit stated he is working with another neighbor on their property, and this neighbor is fine with the project. Chairperson Constantino asked if there was any other opposition to which Mr. Simoneit stated they have not heard of any.

Chairperson Constantino asked how many cars could park on the existing driveway. Mr. Simoneit stated this apron will accommodate one car and be only one guest parking spot. Mr. Simoneit stated they are looking to avoid the long staircase, and they will physically make it so you cannot park more than one car on this apron.

Chairperson Constantino asked if the petitioners would be willing to establish a restrictive covenant to not extend the driveway to the backyard. Mr. Simoneit stated they would be willing.

ZBA Member Lucchesi stated this will be a benefit for one guest and asked what the other benefits will be. Mr. Simoneit stated this will be a parking space off the street that will lead to the front door. Mr. Simoneit stated they will be disturbing less soil and will eliminate 25 risers off the front stairs.

Student ZBA Member Greenleaf stated she does get nervous driving around the bend on Grand Avenue as there are always a lot of cars parked there. Student ZBA Member Greenleaf stated she thinks leaving the existing driveway is a good idea.

ZBA Member Jones asked what the width is of the existing driveway. Mr. Simoneit stated it is a standard apron, but he does not have the specific width. Mr. Simoneit stated the apron will not exceed 12 feet wide.

ZBA Member Micheli asked if the length and width of the apron were submitted with the plans. Village Planner Purvis stated these were not in the submission as it is an existing driveway. Mr. Simoneit stated graphically shown, it is 32 feet in length and 13 feet wide. ZBA Member Micheli asked what the hardship is for this variance request. Mr. Simoneit stated the home would have no front presence on the street to where its address is. Mr. Simoneit stated this property is unique as there is a dramatic situation on the site due to the elevation and the hair-pin turn on the corner. Mr. Simoneit stated this would allow guests to come to the front door on Grand Avenue and give ease of access. ZBA Member Micheli asked if curb appeal is high on the list to which Mr. Simoneit stated it is. ZBA Member Micheli stated he is not sure if the petitioners have articulated a hardship for this variance as a garage on the side of the home is not unique in Glen Ellyn. ZBA Member Micheli stated he can see the desirability to leave the existing driveway, but not a hardship for this.

ZBA Member Whalls asked if they would be willing to use pavers instead of asphalt to which Mr. Simoneit stated they would.

ZBA Member Miller stated there is a unique circumstance on the property, but not a hardship. ZBA Member Miller stated the home is over 80 years old and has been the same way for years. ZBA Member Miller stated he likes the design, but the petitioners have not given anything the ZBA can use in a motion to approve the request. ZBA Member Miller stated they can't recommend this just because it makes the neighborhood look nice. Mr. Simoneit stated this would enhance the neighborhood and be a benefit to the homeowner as well. Mr. Simoneit stated the garage was unusable due to the height, and the existing driveway is very steep.

ZBA Member Micheli asked if they can grant a variance for a hardship if the hardship is self-created. Village Planner Purvis stated one of the standards for granting a variance is that the hardship was not created by the owner of the property, but a variation can be granted for a hardship or unique circumstance.

Persons in Favor of or in Opposition to the Variation Requests

George Heidenreich, who resides at 704 Grand Avenue, was sworn in. Mr. Heidenreich stated he has lived five doors north of this property for 28 years and is also representing his neighbors at 696 Grand Avenue. Mr. Heidenreich stated he is very familiar with the property. Mr. Heidenreich stated they are doing a great job on the property, and this property will be an enhancement to the neighborhood. Mr. Heidenreich stated leaving the existing driveway will not be good for aesthetics, parking issues and water issues. Mr. Heidenreich stated a parking pad in that neighborhood would not be an enhancement, and this pad would only benefit the petitioners but no one else in the neighborhood. Mr. Heidenreich stated leaving the existing driveway would also eliminate a public on-street parking spot that would have been created if the existing driveway was removed. Mr. Heidenreich stated he is aware of the water problems

in this neighborhood, and the parking pad will not help deal with the water even if they use permeable pavers.

ZBA Member Micheli stated it was good insight about the value of losing public on-street parking.

ZBA Member Miller asked if Mr. Heidenreich had anything in writing from his neighbors about their opposition. Mr. Heidenreich stated he does not currently, but the neighbors can submit this. ZBA Member Miller asked if Mr. Heidenreich would feel better if a new, full water survey was done. Mr. Heidenreich stated this would not make a difference.

Robert Hildebrand, who resides at 4 Winner's Cup Circle in Wheaton, was sworn in. Mr. Hildebrand stated he is here representing his parents Bob and Ann Hildebrand who live at 680 Essex Road. Mr. Hildebrand stated his father wrote the letter that is in the ZBA Members' packets. Mr. Hildebrand stated the previous owner of 680 Grand Avenue lived in the home into his 90's, and Mr. Hildebrand does not remember hearing any complaints from the previous owner about issues with the existing driveway. Mr. Hildebrand stated it was mentioned there are no complaints from the homeowners to the east; however, there is no home to the east, but across the street. Mr. Hildebrand stated his parents have concerns regarding the possible construction of a driveway from the northeast corner of the property around the perimeter to the southwest corner of the property which would create a drive-thru effect on the property. Mr. Hildebrand stated this drive-thru effect would be a disturbance to the neighbors and could have a negative economic effect on the neighborhood as well.

ZBA Member Jones asked if Mr. Hildebrand's father's biggest concern is a driveway into the backyard. Mr. Hildebrand stated trees would need to be removed, and a car's headlights could extend into the bedrooms at 680 Essex Road. ZBA Member Jones asked if plantings between the homes would mitigate this to which Mr. Hildebrand stated it might.

ZBA Member Micheli referred to Mr. Hildebrand's letter and stated there seems to be adequate parking on Grand Avenue. ZBA Member Micheli stated leaving the existing driveway could take 8 to 9 parking spots from the public. Mr. Hildebrand stated he thinks his father was referring to that the previous owner had no parking issues. There was a discussion about the width of the new driveway on Essex and how many public parking spots might be affected. Mr. Simoneit stated the two driveways would not take away 8 to 9 parking spots, but more accurately 2 to 3.

Chairperson Constantino stated if the variance is done as requested, they should add a condition regarding no driveway around the back of the property. Mr. Simoneit stated if a new owner of the home wanted to connect the driveways, a new variation request would have to be approved due to the amount of impervious surface that would be created. Village Planner Purvis stated this is correct. ZBA Member Miller stated if the ZBA does do a motion to recommend approval, they will add in a condition for this.

Richard Vincennes, who resides at 1107 N. Cross in Wheaton, was sworn in. Mr. Vincennes passed around pictures on the property in question and stated he is the son-in-law of the Hildebrands who live at 680 Essex Road. Mr. Vincennes stated a concrete or asphalt pad would not be in keeping the character of the neighborhood. Mr. Vincennes stated the concerns about the slope of the property and the distance of the stairs should have been planned ahead. Mr. Vincennes stated keeping the existing driveway is not a good idea and removing this driveway would open a public parking spot on Grand Avenue.

Findings of Fact

ZBA Member Jones stated that petitioners Mike and Chrissy Crnkovic, owners of the property at 680 Grand Avenue, are proposing variations from the Glen Ellyn Zoning Code Section 10-5-11(B)3 to allow an existing driveway approach to remain on the subject property, which is not at least 132 feet wide, after a secondary approach has been constructed.

ZBA Member Jones stated that the subject property is located in the R2 Zoning District on the corner of Essex Road and Grand Avenue just north of Lake Ellyn Park. ZBA Member Jones stated the zoning and land use immediately surrounding the subject property is R2 Single Family Residential and CR Conservation Recreation.

ZBA Member Jones stated notice of the public hearing was published in the August 23, 2018 edition of the Daily Herald, mailed to property owners within 250 feet of the subject property, and a placard was placed on the property.

ZBA Member Jones stated Village records indicate that there were no prior variations granted for this property, and Village records indicate that the following permits have been issued for this property: SF Residence in 1935, HVAC in 1985 and Garage, Patio, and Interior Remodel in 2018.

ZBA Member Jones stated they heard from Village Planner Purvis with the Staff Presentation. ZBA Member Jones stated the Village did receive a letter of objection from neighbor Robert Hildebrand and there were questions about a stormwater review being done.

ZBA Member Jones stated the ZBA heard from petitioner Mike Crnkovic and Architect Jamie Simoneit who have said the home will be the petitioners' main residence for years to come. ZBA Member Jones stated Mr. Simoneit spoke to the garage being substandard and not functional. ZBA Member Jones stated Mr. Simoneit said the property is a challenge due to the steep grade and elevation of the property, and the existing driveway will be replaced and regraded for easy access to the front of the home. ZBA Member Jones stated the driveway will be then designated for one car. ZBA Member Jones stated they want to keep the driveway to

help identify the home at 680 Grand Avenue so it will not be confused with the home at 680 Essex. ZBA Member Jones stated this driveway will not exceed 12 feet in width. ZBA Member Jones stated this driveway will act as a parking space as well as act as a ramp to the front stairs.

ZBA Member Jones stated the ZBA heard from members of the public. ZBA Member Jones stated neighbor George Heidenreich, who resides at 704 Grand Avenue, spoke against the variance being granted due to aesthetics and possible water problems, and this would take away from street parking. ZBA Member Jones stated Robert Hildebrand, who resides at 4 Winner's Cup Circle in Wheaton, spoke at the meeting in opposition of the variance on behalf of his father Robert Hildebrand who lives at 680 Essex. ZBA Member Jones stated Mr. Hildebrand indicated his father is concerned the two driveway approaches being connected, and a drive-thru effect happening in the yard. ZBA Member Jones stated Richard Vincennes, who resides at 1107 N. Cross in Wheaton, spoke in opposition to the variance on behalf of his father-in-law Robert Hildebrand, due to poor planning and the creation of fewer parking spots on Grand Avenue. ZBA Member Micheli stated Mr. Heidenreich also spoke about the truncation of the driveway was not in keeping with the architectural character of the neighborhood which is full of established homes by Lake Ellyn.

Motion

ZBA Member Micheli moved, seconded by ZBA Member Miller, that the Zoning Board of Appeals recommended approval of the Findings of Fact.

The motion carried unanimously with a voice vote.

Additional Comments from the Zoning Board of Appeals

ZBA Member Lucchesi stated he is not in favor of this variance as removing a public parking spot is important. ZBA Member Lucchesi stated he does not see a hardship in having a parking spot for one car.

Student ZBA Member Greenleaf stated she would be in favor of this if she could vote. Student ZBA Member Greenleaf stated she lives next to a home with two driveways, and her family has no issue with these two driveways.

ZBA Member Jones stated he is in favor of this due to what the Village has done in the past; however, the reasons to not grant the variance seem to outweigh the reasons to grant the variance. ZBA Member Jones stated this is a unique property, but he is not sure about the hardship.

ZBA Member Micheli stated he is opposed to this variance as he sees no hardship. ZBA Member Micheli stated the character of the neighborhood needs to be respected. ZBA Member Micheli stated a few neighbors have expressed their opposition to the variance, and there could be more neighbors who will express their opposition as well. ZBA Member Micheli stated this is a very public area by Lake Ellyn and granting this variance would remove a significant number of parking spots.

ZBA Member Whalls stated he is reluctantly in support of this variance due to the unique property's steep grade and topography.

ZBA Member Miller stated he respects ZBA Member Whalls' opinion as someone who lives in that neighborhood. ZBA Member Miller stated the homeowner at 690 Grand Avenue has come before the ZBA before with variance requests, and the ZBA has denied these variance requests due to water issues. ZBA Member Miller stated there is a huge elevation change on the property and on Grand Avenue which the Village has tried to fix. ZBA Member Miller stated he does not support this variance. ZBA Member Miller stated if the Village Board does approve this variance, he urges the Village Board to require a covenant that there would be no more building than what is asked for, require the homeowner to dimension out the apron better so the Village Board can see this and to require an additional water survey. Mr. Simoneit stated the site was fully engineered for both scenarios. ZBA Member Miller stated this should be presented as a part of the Village Board's packet.

Chairperson Constantino stated he is not in favor of this variance as he does not see a particular hardship or unique circumstance. Chairperson Constantino stated the ZBA should not recommend a variance for one parking space. Chairperson Constantino stated there is over a 30-foot difference in the linear feet required for a secondary driveway. Chairperson Constantino stated he is concerned about the permeability issue. Chairperson Constantino stated if the ZBA does deny the recommendation of approval, the petitioner can present to the Village Board, and the Village Board will take another look at this. Chairperson Constantino stated since the ZBA is not recommending this variance, the Village Board would need a 2/3 majority vote for approval.

Mr. Simoneit stated he is working with the neighbor next door to create a swale between the properties. Mr. Simoneit stated the apron will be 18 feet long by 13 feet wide and will be a parking spot, not a through-way. Mr. Simoneit stated this will be aesthetically pleasing and part of a path to the front of the home. ZBA Member Jones asked if the driveway could be 8 feet wide. Village Planner Purvis stated a driveway cannot be less than 9 feet wide.

Motion

A motion was made by ZBA Member Miller and seconded by ZBA Member Jones to close the public hearing for 680 Grand Avenue at 9:05 p.m.

The motion carried unanimously with a voice vote.

A motion was made by ZBA Member Miller and seconded by ZBA Member Micheli that the Zoning Board of Approvals recommend to deny the request for the variation as requested by petitioners Mike and Chrissy Crnkovic from the Glen Ellyn Zoning Code Section 10-5-11(B)3 to allow an existing driveway approach to remain on the subject property, which is not at least 132 feet wide, after a secondary approach has been constructed due to the following reasons:

1. The ZBA does not find any hardships or unique circumstances; and
2. The ZBA was concerned about possible water issues; and
3. There are neighbors who oppose this variation request.

The motion carried with four (4) “yes” and two (2) “no” votes. The “yes” votes are as follows: ZBA Members Lucchesi, Micheli, Miller and Chairperson Constantino. The “no” votes are as follows: ZBA Members Jones and Whalls.

ZBA Member Micheli stated he would like the application packet amended when it goes to the Village Board to show the specific length and width dimensions of both driveways. Village Planner Purvis stated she will ensure this is done.

Chairperson Constantino stated the ZBA has voted to recommend denial, and this should come before the Village Board at the September 24, 2018 meeting.

Village Board Trustee Report

Trustee Senak stated the Village Board passed a 1.5% food and beverage tax that will go into effect in 2019. Trustee Senak stated this tax will help with many Capital Projects, including a Parking Garage, the Central Business District Streetscape, Roosevelt Road improvements and the possible Train Station and Pedestrian Underpass.

ZBA Member Miller stated the Civic Betterment Party is looking for candidates for the Village Board and Library Board.

Staff Report

Associate Planner Purvis stated there are no applications pending at this time.

Adjournment

At 9:18 p.m., a motion was made by ZBA Member Jones and seconded by ZBA Member Whalls to adjourn the meeting. The motion carried unanimously by a voice vote.

Respectfully submitted,

SCHEDULED

AGENDA ITEM (ID # 3671)

DOC ID: 3671

Public Hearing to consider a zoning variation request to allow the construction of a fence as tall as 9 feet in some areas, to be located on the property at 1N480 Swift Road.

PETITIONER: The petitioner is Minhaj Uddin Ahmed Trust, owner of the property at 1N480 Swift Road.

REQUEST: The property owner is requesting approval of a variation from the Glen Ellyn Zoning Code as follows:

1. Section 10-5-5(B)4: Fence - to allow the construction of a fence at a maximum height of 9 feet along the rear lot line and extending 100 feet along the interior side lot lines easterly; the fence will continue at 8 feet in height for approximately 65.5 feet along the north property line and approximately 214.8 feet along the south lot line. Approximately 24.6 feet of fence will be 8 feet in height from the southeast corner of the principal structure to the south lot line. The remainder of the fence will be compliant with the Zoning Code. The permitted height for a fence, no closer to the street than the principal structure is 6 feet.
2. Any other zoning relief necessary to construct the project as depicted on the plans presented or revised at the public hearing or at a public meeting of the Village Board.

ZONING/ USE: The property is located on the west side of Swift Road between St. Charles Road and North Avenue (just north of the Georgetown by the River condominium development) in the R4 Single Family zoning district in unincorporated DuPage County. The land use immediately surrounding the subject property is largely comprised of unincorporated multi-family residential, with one single-family residential property to the north of it.

PUBLIC NOTICE: Notice of the public hearing was published in the October 26, 2018 edition of the Daily Herald, mailed to property owners within 250 ft. of the subject property, and a placard was placed on the property.

PERMIT HISTORY: The property is currently located in unincorporated DuPage County; the

Village does not have a record of any building permits for the property.

**VARIATION
HISTORY:**

The Village does not have a record of any previous variations for the property since it is located in unincorporated DuPage County currently.

**PROJECT
SUMMARY:**

Village staff have been negotiating an annexation agreement with the property owner of 1N480 Swift Road for the better part of a year. The Village has annexation agreements in place with the single family property as well as the two townhome developments (68 units) to the north of the subject site. It is anticipated that all of the properties will be annexed into the Village in the early part of 2019.

Mr. Ahmed has been constructing the single family home on the lot through a building permit issued by the County and will likely finish that process with the County prior to annexing to the Village. He has requested as part of the negotiation of his annexation agreement that the Village grant a fence height variation that would allow him to construct a fence that would provide a buffer between his new single family home and the multi-family developments surrounding his property. Upon annexation, his property will be zoned R2; the construction of his home meets the requirements of the Village's R2 zoning district otherwise.

As is noted above, the petitioner is proposing to construct a 9 foot fence along the rear (west) property line, which abuts a large apartment complex (8 buildings, 3 stories tall plus parking lots and dumpsters). The fence will continue to be 9 feet for approximately 100 feet easterly along the north and south property lines. The fence height will be reduced to 8 feet along the remainder of the south lot line (adjacent to the garages for the Georgetown by the River condominium development). The fence will step down in height to 8 feet for 65.5 feet along the north lot line and then will step down in height again to a code compliant 6 feet where it abuts the single-family home to the north.

The petitioner has suggested that a grade drop of about 14 feet from the front to the rear of the property intensifies the appearance of the height of the westerly apartment development. As part of the variation application, the petitioner has provided a narrative statement which further details the conditions surrounding the site. Please note, while the application requests a variation for a basketball hoop as well, there is not a need for this variation request. The Village Board approved a Zoning Code text amendment eliminating regulations for basketball hoops earlier this year.

ZBA**ACTION:**

The ZBA should consider the testimony presented during the public hearing and review the written evidence presented as part of the petitioners' application packet. The ZBA should make findings of fact and determine if a practical difficulty or particular hardship exists and if the essential character of the neighborhood is maintained.

The ZBA may choose to make a recommendation to the Village Board for the approval, approval with conditions or denial of the variation to allow the proposed fence in accordance with Section 10-10-12 of the Glen Ellyn Zoning Code.

For the property at 1N480 Swift, Lombard, IL 60148 Glen Ellyn, IL 60137

Note to the Applicant: This application should be filed with, and any questions regarding it, should be directed to the Director of the Village Planning and Development Department.

You may attach separate sheets as needed to answer any of the following questions.

The undersigned hereby petitions the Village of Glen Ellyn, Illinois, for one or more variations from the Glen Ellyn Zoning Code (Ordinance No. 3617-Z, as amended), as described in this application.

I. APPLICANT INFORMATION:

(Note: The applicant must comply with Section 10-10-10(B) of the Zoning Code).

Name: Minhaj Ahmed, as Trustee

Address: 1N720 Swift Road, Lombard, IL 60148

Home Phone No.: N/A Cell Phone No.: 630-770-1051

Fax No.: N/A

E-mail: imam.minhaj@gmail.com

Ownership Interest in the Property in Question:

Trustee of the Minhaj Uddin Ahmed Trust dated February 24, 2015.

Attachment: Variance Application (3671 : 1N480 Swift Road - Fence Height Zoning Variation)

CLEAR PAGE

II. INFORMATION REQUIRED BY SECTION 10-10-10(B) OF THE ZONING CODE, IF APPLICABLE:

NOTE: All parties, whether petitioner, agent, attorney, representative and or organization et al. must be fully disclosed by true name and address in compliance with Section 10-10-10(B) of the Zoning Code. Disclosure forms are attached for your convenience.

Name and address of the legal owner of the property (if other than the applicant):

Minhaj Uddin Ahmed Trust dated February 24, 2015
1N720 Swift Road
Lombard, IL 60148

Name and address of the person or entity for whom the applicant is acting (if the applicant is acting in a representative capacity):

Is the property in question subject to a contract or other arrangement for sale with the fee owner? (Choose "Yes" or "No")

YES ☐

NO ☒

If YES, the contract purchaser must provide a copy of the contract to the Village and must either be a co-petitioner to this application or submit the attached Affidavit of Authorization with the application packet.

Is the property in question the subject of a ~~land~~ trust agreement? (Choose "Yes" or "No")

YES ☒

NO ☐

If YES, (1) either the trustee must be a co-petitioner or submit the attached Affidavit of Authorization from the trustee to represent the holders of the beneficial interests in the trust and (2) the applicant must provide a trust disclosure in compliance with "An Act to Require Disclosure of All Beneficial Interests", Chapter 148, Section 71 et seq., Illinois Revised Statutes, signed by the trustee.

V. EVIDENCE RELATING TO ZONING CODE STANDARDS FOR A VARIATION:

The following items are intended to elicit information to support conclusions by the ZBA or PC and the Village Board that the required findings/standards for a variation under the Zoning Code have been established and met. Therefore, please complete these items carefully.

A. Standards Applicable to All Variations Requested:

1. Provide evidence that due to the characteristics of the property in question, there are practical difficulties or particular hardship for the applicant/owner in carrying out the strict letter of the Zoning Code:

Please see the attached narrative.

2. a. Provide evidence that the property in question cannot yield a reasonable return if permitted to be used under the conditions allowed by the Zoning Code (i.e., without one or more variations):

Please see the attached narrative.

OR

CLEAR PAGE

- b. Provide evidence that the plight of the applicant/owner is due to unique circumstances relating to the property in question:

Please see the attached narrative.

3. Provide evidence that the requested variation(s), if granted, will not alter the essential character of the locality of the property in question:

Please see the attached narrative and aerial photographs.

- B. For the purpose of supplementing the above standards, the ZBA or PC, in making its recommendation that there are practical difficulties or particular hardships, shall also take into consideration the extent to which the evidence establishes or fails to establish the following facts favorably to the applicant:

1. Provide evidence that the particular physical surroundings, shape or topographical condition of the property in question would bring particular hardship upon the applicant/owner as distinguished from a mere inconvenience if the strict letter of the Zoning Code were to be carried out:

Please see topographic information, aerial photographs and attached narrative.

Attachment: Variance Application (3671 : 1N480 Swift Road - Fence Height Zoning Variation)

CLEAR PAGE

2. Provide evidence that the conditions upon which the petition for variation is based would not be applicable generally to other property within the same zoning district:

Please see the attached narrative.

3. Provide evidence that the purpose of the variation is not based exclusively upon a desire to make more money out of the property in question:

Please see the attached narrative.

4. Provide evidence that the alleged difficulty or particular hardship has not been created by any person presently having an interest in the property in question or by the applicant.

Please see the attached narrative.

5. Provide evidence that the granting of the variation will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property in question is located.

Please see the attached narrative.

Attachment: Variance Application (3671 : 1N480 Swift Road - Fence Height Zoning Variation)

CLEAR PAGE

6. Provide evidence that the proposed variation will not:

- a. Impair an adequate supply of light and air to adjacent property;

Please see the attached narrative.

- b. Substantially increase the hazard from fire or other dangers to the property in question or adjacent property;

Please see the attached narrative.

- c. Otherwise impair the public health, safety, comfort, morals or general welfare of the inhabitants of the Village;

Please see the attached narrative.

- d. Diminish or impair property values within the neighborhood;

Please see the attached narrative.

- e. Unduly increase traffic congestion in the public streets and highway;

Please see the attached narrative.

- f. Create a nuisance; or

Please see the attached narrative.

Attachment: Variance Application (3671 : 1N480 Swift Road - Fence Height Zoning Variation)

CLEAR PAGE

- g. Results in an increase in public expenditures.

Please see the attached narrative.

7. Provide evidence that the variation is the minimum variation that will make possible the reasonable use of the land, building or structure.

Please see the attached narrative.

8. Please add any comments which may assist the commission in reviewing this application.

Please see the attached narrative.

VI. CERTIFICATIONS, CONSENT AND SIGNATURE(S)

CLEAR PAGE

I (We) certify that all of the statements and documents submitted as part of this application are true and complete to the best of my (our) knowledge and belief.

I (We) consent to the entry in or upon the premises described in the application by any authorized official of the Village of Glen Ellyn.

I (We) certify that I (we) have carefully reviewed the Glen Ellyn Zoning Variation Request Package and applicable provisions of the Glen Ellyn Zoning Code.

I (We) consent to accept and pay the cost to publish a notice of Public Hearing as submitted on an invoice from the publishing newspaper. I (we) understand that our request will not be scheduled for a Village Board agenda until and unless this invoice is paid.

PROJECT NARRATIVE

1N480 Swift Road, Lombard, DuPage County, Illinois

Permanent Index No. 05-01-107-093

REQUEST FOR VARIATIONS

Applicant, the Minhaj Uddin Ahmed Trust dated February 24, 2015 (“Trust” or “Applicant”) respectfully seeks two variations from the Glen Ellyn Zoning Ordinance upon annexation of the property commonly known as 1N480 Swift Road (the “Subject Property”) and its rezoning to Glen Ellyn’s R-2 zoning classification. First, the Trust seeks approval of a taller fence along its entire rear (west) property line and portions of its north and south lot lines in order to screen adjoining uses and structures that are not of a single-family character. Second, Applicant seeks approval of a variation to permit a basketball standard in the area east of the principal residence. The Village is in the process of annexing the Subject Property pursuant to an agreement that is presently in negotiation concerning terms that include the relief sought in the application.

THE SUBJECT PROPERTY

The Subject Property is comprised of 50,719 square feet (+/-) situated along the west side of Swift Road in unincorporated DuPage County. Due to the angle of Swift Road, the Subject Property has a depth of between 401 feet (south) and 431 feet (north) and a width between 120 feet (west) and 125 feet (east). At present, Applicant is constructing a new single-family home on the Subject Property pursuant to a permit issued by the County of DuPage, and Applicant has cooperated with the Village in filing a petition for annexation subject to an annexation agreement.

The Subject Property drops from a maximum elevation of 718 feet at Swift Road and around the curtilage of the home to slightly more than 704 feet at the rear property line. There is a single family home situated north of the Subject Property. To the west of the Subject Property lies a three-story multiple family apartment complex (eight buildings) in unincorporated DuPage County. These buildings and their exterior balconies rise at least 35 feet above the rear yard elevation of the Subject Property and, due to their alignment, the apartment buildings have an apparent mass of hundreds of feet when viewed from the rear yard. Georgetown by the River Townhomes is directly south of the Subject Property. Georgetown’s common and limited common areas include two 100-foot-plus long garages and part of a third garage that line the south line of the Subject Property. The garages generally have a visual appearance roughly 18 feet above the rear yard elevation of the Subject Property.

Attachment: Variance Application (3671 : 1N480 Swift Road - Fence Height Zoning Variation)

PROJECT NARRATIVE

1N480 Swift Road, Lombard, DuPage County, Illinois
Permanent Index No. 05-01-107-093

Page 2

Applicant was in the process of constructing a new single-family residence on the Subject Property according to the applicable codes and ordinances of DuPage County when the Village suggested that Applicant consider annexation. Applicant and the Village have entered into the annexation process, but Applicant needs to have allowances sufficient to afford it the reasonable use of the Subject Property as was intended. A sense of privacy is a substantial component of land use for residential purposes and the fence variation serves this interest. Further, the County regulates the use of the front yard in a fashion that allows a basketball standard in front of the principal residence, and the driveway areas were planned for this purpose.

STANDARDS FOR VARIATION

While a lot can be said about the elements pertaining to recommendations of variations by the Village's Zoning Board of Appeals and approvals of variations by the Village Board, the two requested variations quite clearly meet the practical difficulties standard and the fence variation meets the particular hardship standard. Applicant respectfully notes that the approval of the variations will not change any appearance within the neighborhood. With respect to the basketball standard, the Applicant would be entitled to use the standard in front of the home simply by reason of annexation following its installation.

Practical Difficulty

Applicant is constructing a new single family residence in an area dominated by multiple family use and attached single family use (townhomes). In attempting to gain privacy for the rear yard area, Applicant has considered a screen along the south line, but the combination of tall structures adjacent to Applicant's lot lines makes doing so quite difficult. The increase in the height of the fence on the rear lot line is designed to diminish lines of sight to and from the balconies of the 130-foot long, three-story apartment building roughly 80 feet west of the rear yard. Additionally, Applicant is attempting to screen the mass of three-story multiple family structures from view in order to buffer the more intense use from Applicant's large-lot single family use. The added height of the fence is intended to allow for a reduction of noise from a parking area that serves 38-40 vehicles and unscreened dumpster operations.

With respect to the basketball standard, Applicant is concerned that an interpretation of the Glen Ellyn Zoning Ordinance could render the basketball standard a non-conforming use if this structure is installed prior to annexation or, alternatively, render the installation illegal if Applicant defers installation until after warm weather hits in 2019. It is possible that landscaping will not be fully installed until 2019 and that the basketball standard would follow this effort. In cooperating with the Village on annexation matters, Applicant has attempted to preserve his plan for buildings, structures and installations, and the basketball standard is part of this effort.

The inabilities noted above meet the standard of practical difficulty because the fence and accessory structure regulations prohibit steps necessary to meet privacy concerns and to preserve existing plans for construction under a distinct set of regulations at the County.

PROJECT NARRATIVE
 1N480 Swift Road, Lombard, DuPage County, Illinois
 Permanent Index No. 05-01-107-093

Page 3

Particular Hardship

The condition of the Subject Property as one of two detached single family lots in the most immediate 35-40 acres along and west of Swift Road presents hardship. The need to create privacy through the fence variation arises from the much higher densities of abutting and nearby properties and the sheer mass of principal buildings (the apartments) and accessory buildings (the two and one-half 100-foot long detached garages) that abut the west and south lines of the Subject Property. Grading and elevations within the rear yard could never change to the extent required to create a sense of privacy. Additionally, while one might wonder whether planting trees is an answer, the trees would have only minimal effort on the mitigation of noise from the parking lot activity and the unscreened dumpsters.

A six-foot fence between a large lot, single family use and the higher intensity uses will not afford the Applicant the privacy necessary, and indeed expected, on the Subject Property. The topography or natural conditions of the Subject Property do not allow for privacy when the residents of the Subject Property will spend most of their time at an elevation, while seated on a patio or deck or in the yard near their home, and still be able to see over a fence at the regulatory height. In most instances, berming or more buffering between uses is preferred, but the prior developments, particularly the apartments, are not sufficiently buffered or screened due the timing of their development in relation to modern planning prerogatives. This essentially leaves Applicant in the position of reasonably responding with a request to increase the height of the fence and step it down to regulatory heights as it extends east.

In any single-family setting, owners expect to have privacy. Without privacy, a property owner will experience loss as well as a lack of reasonable return from the least intensive permitted use on the Subject Property. At present, the zoning district is undefined. The lot to the north may experience the same conditions on its west lot line, but it is buffered by less intensive use and the short sides of principal buildings (as opposed to the long, accessory detached garages on the south line of the Subject Property). The feathering of this use north of the adjacent lot between that lot and the apartments creates more of a sense of single family detached residential privacy than exists on the Subject Property by breaking up the view to the apartments

Granting the requested zoning variation will not alter the essential character of the locality of the property in question. Along the south line of the Subject Property, the detached garages create a visual mass much taller than the fence proposed for the Subject Property, and the fence will drop to regulatory heights east of the garages. Along the west line, the fence does not obstruct a view to any amenity or create an appearance of having no open space inasmuch as the apartment parking area is not a common open space area that serves an purpose other than parking and waste operations. Along the north line of the Subject Property, the fence will drop to regulatory heights much earlier than on the south, and the relief is limited to that which is necessary to screen the views to and from the three-story apartments and their balconies.

PROJECT NARRATIVE
 1N480 Swift Road, Lombard, DuPage County, Illinois
 Permanent Index No. 05-01-107-093

Page 4

ORDAINED STANDARDS

Applicant presents information (above) that is sufficient to clearly show that the particular physical surroundings and topographical condition of the Subject Property bring particular hardship upon Applicant as distinguished from a mere inconvenience, if the strict letter of the regulations were to be carried out. As noted above, the practical difficulty standard also applies to the fence relief and the Applicant relies on practical difficulties arising from its cooperation with the Village in seeking annexation when Applicant plans for a basketball standard in the front yard.

The conditions upon which this petition is based are not applicable generally to other property within the same zoning district. If one assumes that all residential properties along the west side of Swift Road are classified as R-2, there are only three single family detached residential properties. Applicant has addressed the property situated at 1N510 Swift Road above, but, in relation to the basketball standard, this adjoining lot has a long history of outdoor use only behind the face of the residence—be it for most of its parking or its outdoor storage. Nearly 1,400 feet to the north, 1N674 Swift Road is residential in appearance and use, but it has a connection with the religious use next door while also receiving the benefits of substantial buffering. 1N640 Swift Road is a multi-building lot that appears to host a contractor use and this lot is not one reasonably expected to develop to a single family detached residential setting.

The fence variation maintains a reasonable sense of residential privacy. The ability to place a basketball standard in front of the principal residence continues the particular expectancy of the Applicant in transitioning from DuPage County jurisdiction to Village jurisdiction. Neither variation serves to increase the profits of the owner in holding the property. Indeed, the owner is maintaining a single family lot that is larger than 50,000 square feet—something relatively uncommon in Glen Ellyn.

Applicant and its predecessors have had no role in the creation of grades and elevations in the area. Further, they have had no role in the off-site development of Georgetown by the River and the three-story apartments to the west. The difficulty and hardship were not created by any person presently having an interest in the Subject Property or by the Applicant.

Due to the circumstance that the fence steps down as it extends from west to east, the height of the fence will have an appearance of regulatory compliance. Behind the fence, taller and more massive structures will remain. The appearance in the side and rear yard areas will appear planned as a buffer rather than as an abrupt change in uses that can often conflict. As a result, the variation will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood.

It can often be said that the very design of fences leads to a change in the flow of light and air. However, the increase in the height of the fence occurs only at points where there are structures that are about 18 feet tall (the garages) and 35-40 feet tall (the apartments) in direct view. No element of the additional height of the fences will impair an adequate supply of light

Attachment: Variance Application (3671 : 1N480 Swift Road - Fence Height Zoning Variation)

PROJECT NARRATIVE

1N480 Swift Road, Lombard, DuPage County, Illinois
 Permanent Index No. 05-01-107-093

Page 5

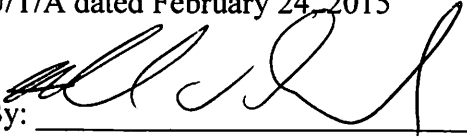

and air to adjacent property north, south or west of the Subject Property. The basketball standard will not have any impact on light and air.

Neither the fence nor the basketball standard will substantially increase the hazard from fire or other dangers to any property. The added height and the basketball standard are intended to protect the large-lot, single family residential character of the Subject Property and the use of the taller fence at certain necessary locations and the standard will not impair the public health, safety, comfort, morals or general welfare of any inhabitant of the Village. The north fence line will actually serve to buffer views from 1N510 Swift Road to the west-southwest to the three-story apartments and serve to reduce noise from parking lot operations and the unenclosed disposal area and actually provide a coincidental benefit to 1N510 Swift Road rather than diminish or impair property values within the neighborhood. The taller fence will remain below the profile of the ground level ceiling heights of the garages to the south and the apartments to the west. Neither the fence nor that basketball standard will have any impact on traffic congestion along Swift Road. Neither installation will create a nuisance. Neither installation will result in an increase in public expenditures.

As noted above, the fence height will be reduced in areas where the added height is not required to screen either the apartments or the detached garages. Regulatory fence heights will apply along the south lot line at areas east of the garages. At a point approximately 170 feet east of the west lot line, the north line of the fence will drop to regulatory heights. This transition to regulatory heights along the south lot line occurs at a point roughly north of the east extension of the garages serving Georgetown on the River. The relief is the minimum necessary to serve its purpose of allowing the reasonable use of the Subject Property for large-lot residential purposes.

TABLE 10-5-5(B)4

PERMITTED OBSTRUCTIONS AND ACCESSORY STRUCTURES IN REQUIRED
SETBACKS

Obstruction	Front (Corner)	Side	Rear	Regulations
11. Fence	X	X	X	B(a) Limitations:
				(1) 33.3% open in front and corner side yard setbacks
				(2) Material (such as barbed wire, electrified, or any matter) that creates a system that is inherently dangerous to a pedestrian using the public sidewalks or public rights-of-way is prohibited
				(3) Exposed structural elements shall face toward the property on which the fence is constructed
				(4) In the residential estate district, chain-link fences shall be prohibited in the front yard and corner side yard
				(b) Height:
				(1) Measured from ground level on the inside of the fence to the highest point of the fence
				(2) 3' maximum in visibility triangle
				(3) 6' maximum for fence located no closer to the street than the principal structure on a lot

				(4) 4' maximum all other areas of the lot
				(c) Additional allowances:
				(1) On lots fronting on 2 nonintersecting streets, a 6' tall fence shall be permitted if a "no access" provision has been recorded for that frontage and if the rear of the homes on both adjacent lots are facing the same street. Unless the fence will be located along a street that is under the jurisdiction of either DuDOT or IDOT, or is a public alleyway, such fence shall be positioned 4' inside the property and maintained with viable shrubs planted 4' on center along the outside of the fence in perpetuity.
				(2) Masonry columns no greater than 2' x 2' in size and placed no closer than 8' on center
				(3) Fence posts and top caps may extend up to 6" above the fence height. The height of a cap located on top of a masonry column shall be no higher than the height of the column or a maximum of 9' tall measured from ground level
				(4) The bottom of a fence may be located up to 4" above ground level. Such distance shall not be counted toward the fence height

NOTICE OF PUBLIC HEARING

Minhaj Uddin Ahmed Trust, owner of the property at 1N480 Swift Road, is requesting a public hearing for a variation in accordance with Section 10-10-12 of the Glen Ellyn Zoning Code. The Glen Ellyn Zoning Board of Appeals will conduct a public hearing to consider the variation on **Tuesday, November 13, 2018** at 7:00 p.m. on the third floor in the Civic Center, 535 Duane Street, Glen Ellyn, Illinois. Anyone is welcome to attend.

The property owner is requesting approval of a variation from the Glen Ellyn Zoning Code as follows:

1. Section 10-5-5(B)4: Table – to allow the construction of a fence at a maximum height of 9 feet along the rear lot line and extending 100 feet along the interior side lot lines easterly; the fence will continue at 8 feet in height for approximately 65.5 feet along the north property line and approximately 214.8 feet along the south lot line. Approximately 24.6 feet of fence will be 8 feet in height from the southeast corner of the principal structure to the south lot line. The remainder of the fence will be compliant with the Zoning Code. The permitted height for a fence, no closer to the street than the principal structure is 6 feet.
2. Any other zoning relief necessary to construct the project as depicted on the plans presented or revised at the public hearing or at a public meeting of the Village Board.

The property is currently unincorporated but will be zoned R2, Residential District upon annexation to the Village of Glen Ellyn, and is legally described as follows:

LOT 4 IN HOYLE'S ASSESSMENT PLAT OF PART OF LOT 3 OF THE PLAT ATTACHED TO THE LAST WILL AND TESTAMENT OF ISAAC BRADFORD CHURCHILL BEING A PART OF THE NORTHWEST QUARTER OF SECTION 1, TOWNSHIP 39 NORTH, RANGE 10 EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT OF HOYLE'S ASSESSMENT PLAT THEREOF RECORDED DECEMBER 18, 1943 AS DOCUMENT NO. 456996 IN DUPAGE COUNTY, ILLINOIS.

P.I.N.: 05-01-107-029

Plans related to the proposed project are available for public review in the Planning and Development Department, Civic Center, 535 Duane Street, Glen Ellyn, Illinois. If you have questions, please contact Kelly Purvis at (630) 547-5371. For individuals with disabilities who have questions regarding the accessibility of the meeting or facilities, please contact the Village at least 24 hours in advance of the meeting at (630)469-5000.

**NOTICE OF
PUBLIC HEARING**

Minhaj Uddin Ahmed Trust, owner of the property at 1N480 Swift Road, is requesting a public hearing for a variation in accordance with Section 10-10-12 of the Glen Ellyn Zoning Code. The Glen Ellyn Zoning Board of Appeals will conduct a public hearing to consider the variation on Tuesday, November 13, 2018 at 7:00 p.m. on the third floor in the Civic Center, 535 Duane Street, Glen Ellyn, Illinois. Anyone is welcome to attend.

The property owner is requesting approval of a variation from the Glen Ellyn Zoning Code as follows:

1. Section 10-5-5(B)(4): Table - to allow the construction of a fence at a maximum height of 9 feet along the rear lot line and extending 100 feet along the interior side lot lines easterly; the fence will continue at 8 feet in height for approximately 65.5 feet along the north property line and approximately 214.8 feet along the south lot line. Approximately 24.6 feet of fence will be 8 feet in height from the southeast corner of the principal structure to the south lot line. The remainder of the fence will be compliant with the Zoning Code. The permitted height for a fence, no closer to the street than the principal structure is 6 feet.

2. Any other zoning relief necessary to construct the project as depicted on the plans presented or revised at the public hearing or at a public meeting of the Village Board.

The property is currently unincorporated but will be zoned R2, Residential District upon annexation to the Village of Glen Ellyn, and is legally described as follows:

LOT 4 IN HOYLE'S ASSESSMENT PLAT OF PART OF LOT 3 OF THE PLAT ATTACHED TO THE LAST WILL AND TESTAMENT OF ISAAC BRADFORD CHURCHILL BEING A PART OF THE NORTHWEST QUARTER OF SECTION 1, TOWNSHIP 39 NORTH, RANGE 10 EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT OF HOYLE'S ASSESSMENT PLAT THEREOF, RECORDED DECEMBER 18, 1943 AS DOCUMENT NO. 456996 IN DUPAGE COUNTY, ILLINOIS.

P.I.N.: 05-01-107-029
Plans related to the proposed project are available for public review in the Planning and Development Department, Civic Center, 535 Duane Street, Glen Ellyn, Illinois. If you have questions, please contact Kelly Purvis at (630) 547-5371. For individuals with disabilities who have questions regarding the accessibility of the meeting or facilities, please contact the Village at least 24 hours in advance of the meeting at (630) 469-5000.

SCHEDULED

AGENDA ITEM (ID # 3670)

DOC ID: 3670

Public Hearing to consider a zoning variation request to allow the construction of an addition over an attached garage that is non-conforming to the rear yard setback.

- PETITIONERS:** The petitioners are David and Allison Neill, owners of the property located at 689 Lake Road.
- REQUEST:** The property owners are requesting approval of the following variation from the Glen Ellyn Zoning Code:
- . Section 10-8-6(B)4 to allow the construction of a second story addition over an existing non-conforming attached garage which will have a rear yard setback of 29.1 feet in lieu of the required 30 feet; and
 - . Any other zoning relief necessary to construct the project as depicted on the plans presented or revised at the public hearing or at a public meeting of the Village Board.
- ZONING/ USE:** The property is an interior lot located in the R2 Zoning District on the east side of Lake Road between Oak Street and Essex Road. The zoning and land use immediately surrounding the subject property is R2 single family residential and CR conservation recreation.
- PUBLIC NOTICE:** Notice of the public hearing was published in the October 26, 2018 edition of the Daily Herald, mailed to property owners within 250 feet of the subject property, and a placard was placed on the property.
- VARIANCE HISTORY:** No Village records were found relating to the granting of any zoning variations for the subject property.
- PERMIT HISTORY:** Village records indicate that the following building permits have been issued for the subject property:

<u>Date</u>	<u>Permit No.</u>	<u>Type</u>
1988	B10416	Addition
2009	20091034	Driveway

PROJECT

SUMMARY:

David and Allison Neill, owners of the property at 689 Lake Road would like to construct an addition over their attached garage. The garage is non-conforming to the rear yard setback, with a setback of 29.1 feet in lieu of the 40 foot setback required in the R2 zoning district. The Zoning Code allows an exception for the construction of additions on non-conforming structures in Section 10-8-6(B)4 that will allow the construction of an addition above or within the perimeter of an existing structure as long as the following criteria are met:

- (a) The existing lot coverage ratio does not exceed 25 percent;
- (b) The existing front perimeter wall projects no more than 5 feet into the minimum required front yard setback for the zoning district;
- (c) The existing side perimeter walls project no more than two feet into the minimum required side yard setback for the zoning district;
- (d) **The existing rear perimeter wall projects no more than 10 feet into the minimum required rear yard setback for an interior lot or no more than 15 feet for a corner lot;**
- (e) That the sum of the first floor area and the second floor area not exceed the equivalent to a 40% lot coverage ratio; and
- (f) The addition or alteration is permitted in subsection (B)3 of this section

All requirements for this exception are met, except that the rear wall projects 10.9 feet into the rear yard setback, and is only permitted to project a maximum of 10 feet. In order to construct the addition as proposed, the petitioners will need to be granted a zoning variation.

As shown in the attached application for variation, the property at 689 Lake Road has an irregularly shaped rear yard that creates an irregular setback line. If not for this irregular shape, the property owners would not need to request relief from the Zoning Code.

**ZBA
ACTION:**

The ZBA should consider the testimony presented during the public hearing and review the written evidence presented as part of the petitioners' application packet. The ZBA should make findings of fact and determine if a practical difficulty or particular hardship exists and if the essential character of the neighborhood is maintained.

The ZBA may choose to make a recommendation to the Village Board for the approval, approval with conditions or denial of the variation to allow the proposed addition in accordance with Section 10-10-12 of the Glen Ellyn Zoning Code.

Ownership Interest in the Property in Question:
architect for property owners

Attachment: Petitioner's Application Packet (3670 : 689 Lake Road - Zoning Variation)

II. INFORMATION REQUIRED BY SECTION 10-10-10(B) OF THE ZONING CODE, IF APPLICABLE:

NOTE: All parties, whether petitioner, agent, attorney, representative and or organization et al. must be fully disclosed by true name and address in compliance with Section 10-10-10(B) of the Zoning Code. Disclosure forms are attached for your convenience.

Name and address of the legal owner of the property (if other than the applicant):

David + Allison Neill
689 Lake Road, Glen Ellyn, IL. 60137

Name and address of the person or entity for whom the applicant is acting (if the applicant is acting in a representative capacity):

David + Allison Neill
689 Lake Road, Glen Ellyn, IL. 60137

Is the property in question subject to a contract or other arrangement for sale with the fee owner? (Circle "Yes" or "No")

~~YES~~

NO

If YES, the contract purchaser must provide a copy of the contract to the Village and must either be a co-petitioner to this application or submit the attached Affidavit of Authorization with the application packet.

Is the property in question the subject of a land trust agreement? (Circle "Yes" or "No")

~~YES~~

NO

If YES, (1) either the trustee must be a co-petitioner or submit the attached Affidavit of Authorization from the trustee to represent the holders of the beneficial interests in the trust and (2) the applicant must provide a trust disclosure in compliance with "An Act to Require Disclosure of All Beneficial Interests", Chapter 148, Section 71 et seq., Illinois Revised Statutes, signed by the trustee.

III. PROPERTY INFORMATION:

Common address: 689 Lake Road, Glen Ellyn, IL. 60137

Permanent tax index number: 05-11-216-040

Legal description: Lot 2 in Lake Road Resubdivision, being a Resubdivision of parts of Mar-Dell, Hobson's Resubdivision, Rahr's Division and Wassell's Crescent Boulevard Subdivision, Glen Ellyn, Illinois, in Section 11, Township 39 North, Range 10, East of the Third Principal Meridian, according to the Plat of said Lake Road Resubdivision recorded September 24, 1958 as Document 896062, in DuPage County, Illinois.

Zoning classification: R2

Lot size: 75 ft. x 132.5 ft. Area: 8,662 sq. ft. per plat of survey

NOTE: irregular/non-rectangular at 75' x 117.5' x 8' x 6' x 35' x 9.5' x 51.90' x 100'

Present use: 1-story walk-out existing nonconforming single-family dwelling/ private residence

IV. INFORMATION REGARDING THE VARIATION(S) REQUESTED:

Description of the variation(s) requested (including identification of the Zoning Code provisions from which variation is sought) and proposed use(s):

CHAPTER 8: NONCONFORMITIES: 10-8-6: NONCONFORMING BUILDINGS AND STRUCTURES

(B) Additions and Enlargements 4.d. The existing rear perimeter wall projects no more than 10 feet into the minimum required rear yard setback for an interior lot or no more than 15 feet for a corner lot

The Neill's are requesting a single variation: to allow for a 29.1' rear yard setback in lieu of the required 30

Thus: 30 feet required - 29.1 feet existing/ requested = .90 feet encroachment = 10 3/4 inches

Estimated date to begin construction: ASAP / late fall of 2018

Names and addresses of any experts (e.g., planner, architect, engineer, attorney, etc.):

architect: Daniel J. Simoneit (Jamie) z+o architecture + interiors 504 Hillside Avenue, Glen Ellyn, IL. 60137

civil engineer/surveyor: Carradus Land Survey, Inc. 100 Bridge Street, Wheaton, IL. 60187

V. EVIDENCE RELATING TO ZONING CODE STANDARDS FOR A VARIATION:

The following items are intended to elicit information to support conclusions by the ZBA or PC and the Village Board that the required findings/standards for a variation under the Zoning Code have been established and met. Therefore, please complete these items carefully.

A. Standards Applicable to All Variations Requested:

1. Provide evidence that due to the characteristics of the property in question, there are practical difficulties or particular hardship for the applicant/owner in carrying out the strict letter of the Zoning Code:
 1. The existing home is non-confirming to the overlaid R2 zoning district rear and side setbacks.
 2. The existing walk-out/drive-out garage foot print encroaches the required rear yard setback by 10.75"
 3. The property's shape is not rectangular but a parallelogram with side yards that are not perpendicular to Lake Road while the home fronts/sits parallel to Lake Road resulting in a shortened rear yard.
 4. The rear yard boarder line is highly irregular which is the cause of the need for a variation
this is due to the irregular intersections of multiple properties on an highly irregular block .
2. a. Provide evidence that the property in question cannot yield a reasonable return if permitted to be used under the conditions allowed by the Zoning Code (i.e., without one or more variations):
The property was originally listed as "Ripe for a total re-hab" and then downgraded to
tear-down status in order to "build your Dream Home here". The property sat on the market
because of it's its lack of contiguous living space due to it's funky 1956 walk-up to main living level
The property was listed and eventually sold for below the market value of it's adjacent neighbors

OR

- b. Provide evidence that the plight of the applicant/owner is due to unique circumstances relating to the property in question:
The property's topography, shape and the homes existing footprint and layout are truly
the definition of unique - one of a kind.
3. Provide evidence that the requested variation(s), if granted, will not alter the essential character of the locality of the property in question:
Upon completion of the proposed addition and renovation the home will still be smaller
both in footprint and building height than all of it's adjacent neighbors and just might be
the smallest structure on Lake Road.

B. For the purpose of supplementing the above standards, the ZBA or PC, in making its recommendation that there are practical difficulties or particular hardships, shall also take into consideration the extent to which the evidence establishes or fails to establish the following facts favorably to the applicant:

1. Provide evidence that the particular physical surroundings, shape or topographical condition of the property in question would bring particular hardship upon the applicant/owner as distinguished from a mere inconvenience if the strict letter of the Zoning Code were to be carried out:
The primary hardship exists due an atypical rear boundary line and an existing viable foundation
that was constructed in 1956 that crosses an invisable boundary that resides in a Forest of trees
by a total of 10.75". The triangular encroachment yeilds less than one square foot equalling .72 SF .

2. Provide evidence that the conditions upon which the petition for variation is based would not be applicable generally to other property within the same zoning district:

The petition for variation is based on a very unique, if not one-of a kind situation.

3. Provide evidence that the purpose of the variation is not based exclusively upon a desire to make more money out of the property in question:

The proposed solution and the endeavor of applying for a variance is not driven by making money on the property. Both David + Allison Neill's were born and raised in Glen Ellyn, their request for this variation is driven by their desire to create an right-sized home that functions well to raise their family in.

4. Provide evidence that the alleged difficulty or particular hardship has not been created by any person presently having an interest in the property in question or by the applicant.

The hardships were created 62 years ago by a not-so-site sensitive developer/home builder that that constructed a home under a different set of zoning rules.

5. Provide evidence that the granting of the variation will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property in question is located

The Neill's have been working with and will be working with licensed professionals to ensure the best design solution is achieved and that their proposed project will not be detrimental or injurious to other property in their neighborhood.

6. Provide evidence that the proposed variation will not:

- a. Impair an adequate supply of light and air to adjacent property;

None expected/none imagined at the time of this application.

The new addition will not obstruct any neighbors views - the existing rear yard is heavily forested.

- b. Substantially increase the hazard from fire or other dangers to the property in question or adjacent property;

None expected/none imagined at the time of this application.

- c. Otherwise impair the public health, safety, comfort, morals or general welfare of the inhabitants of the Village;

None expected/none imagined at the time of this application.

- d. Diminish or impair property values within the neighborhood;

The proposed project will not diminish, but improve and increase the adjacent property values.

- e. Unduly increase traffic congestion in the public streets and highway;

None expected/none imagined at the time of this application.

- f. Create a nuisance; or

None expected/none imagined at the time of this application.

- g. Results in an increase in public expenditures.

None expected/none imagined at the time of this application.

7. Provide evidence that the variation is the minimum variation that will make possible the reasonable use of the land, building or structure.

As an architect, I prefer not to request variances but desire to create conforming solutions. Please know that we have explored multiple alternative options in the effort to improve this property and meet while meeting the Neill's minimal needs. (10.75"/.72 sf)

8. Please add any comments which may assist the commission in reviewing this application.

It is David + Allison Neill's desire to make 689 Lake Road a home to last them their lifetime and to have their children walk down the street to the same High School that they both graduated from.

Their request to be allowed to construct over an existing condition not of their making is miniscule.

The proposed project will have zero impact on their new/old neighborhood and the adjacent homes.

We would encourage all the ZBA members to walk up onto the existing terrace on top of the garage to observe the property from above and to see the variation request depicted in orange on the southeast corner. A terrace access stair is located on the east/backside of the garage.

Thank you in advance for your time and effort in this matter.

David + Allison Neill
689 Lake Road
Glen Ellyn, IL. 60137

VI. CERTIFICATIONS, CONSENT AND SIGNATURE(S)

I (We) certify that all of the statements and documents submitted as part of this application are true and complete to the best of my (our) knowledge and belief.

I (We) consent to the entry in or upon the premises described in the application by any authorized official of the Village of Glen Ellyn.

I (We) certify that I (we) have carefully reviewed the Glen Ellyn Zoning Variation Request Package and applicable provisions of the Glen Ellyn Zoning Code.

I (We) consent to accept and pay the cost to publish a notice of Public Hearing as submitted on an invoice from the publishing newspaper. I (we) understand that our request will not be scheduled for a Village Board agenda until and unless this invoice is paid.

TRUSTEE'S DEED

This Indenture, made this 2nd day of May, 2018, between James Baumbich, not individually, but as successor trustee of the Thekla M. Baumbich Trust dated June 17, 1999, Grantor, and David Neill and Allison Webb, whose address is 21 E. Huron St., Unit #3802, Chicago, Illinois 60611, Grantee, not as tenants in common, but as *JOINT TENANTS WITH THE RIGHT OF SURVIVORSHIP*.

Witnesseth. That said Grantor, in consideration of the sum of Ten Dollars (\$10.00), and other good and valuable considerations in hand paid, does hereby grant, sell, and convey unto said Grantee, the following described real estate, situated in DU PAGE County, State of Illinois, to wit:

Lot 2 in Lake Road Resubdivision, being a Resubdivision of parts of Mar-Dell, Hobson's Resubdivision, Rahr's Division and Wassell's Crescent Boulevard Subdivision, Glen Ellyn, Illinois, in Section 11, Township 39 North, Range 10, East of the Third Principal Meridian, according to the Plat of said Lake Road Resubdivision recorded September 24, 1958 as Document 896062, in DuPage County, Illinois.

Permanent Index Number(s): 05-11-216-040
Property Address: 689 Lake Rd., Glen Ellyn, IL 60137

together with the tenements and appurtenances thereunto belonging.

Subject, however, to the general taxes for the year of 2017 and thereafter, and all covenants, restrictions, and conditions of record, applicable zoning laws, ordinances, and other governmental regulations.

To Have and To Hold the same unto Grantee, and to the proper use, benefit, and behold forever of the Grantee.

This deed is executed pursuant to and in the exercise of the power and authority granted to and vested in Grantor by the terms of said deed or deeds in trust delivered to Grantor in pursuance of the trust agreement above mentioned. This deed is made subject to the lien of every trust or mortgage (if any there be) of record in said county given to secure the payment of money, and remaining unreleased at the date of the delivery hereof.

10-5-5(C)1	Impervious Surface Setback	FALSE ft max	ft	NA ft		

- Notes:
1. Setback Bonus, Ridge:

An increase of both side yard setbacks of 1 foot or more than the required setback allows 1 foot more of ridge height up to its maximum.
2. Setback Bonus, Eave:

An increase of both side yard setbacks of 1 foot or more than the required setback allows 1 foot more of eave height up to its maximum.
3. Raised Front Porch Bonus:

A 'raised front porch' of at least 2 feet above grade allows up to 2 feet more ridge height. A 'raised front porch' of at least 3 feet above grade allows up to 3 feet more ridge height.
4. Dormer Bonus, Eave:

The eave height shall not apply to dormer(s) no greater than 8 feet wide and the combined dormer width shall not exceed 25 percent of the length of the building side measured to the outside edges, provided the dormers are separated by a minimum of 5 feet.
5. Front Yard Setback:

The initial principal structure erected on a lot in a subdivision recorded with the DuPage County Recorder of Deeds Office after March 1, 1999, may be constructed to the minimum required front yard setback for the zoning district.

Comments:

10-8-6. - Nonconforming buildings and structures.

Any lawfully existing building or structure which does not conform with the regulations of the district in which it is located shall be subject to the provisions of this section:

- (A) *Repairs and alterations* : Ordinary repairs and alterations, but not including reconstruction or replacement, may be made to a nonconforming building or structure, provided that no structural alterations shall be made in or to such building or structure, all or substantially all of which is designed or intended for a use not permitted in the district in which it is located, except those required by law, or except to make the building or structure, and use thereof, conform to the regulations of the district in which it is located. For the purpose of this section, ordinary repairs, as determined by the Building and Zoning Official, shall include the replacement of storage tanks where the safety of operation of the installation require such replacement.
- (B) *Additions and enlargements*:
1. *Additions to nonconforming structures*: A nonconforming building or structure, all or substantially all of which is designed or intended for a use not permitted in the district in which it is located, shall not be added to or enlarged in any manner unless such nonconforming building or structure, and use thereof, including all additions and enlargements thereto, is made to conform to all the regulations of the district in which it is located;
 2. *Additions to nonconforming structures due to bulk*: A nonconforming building or structure other than a single-family dwelling, which is nonconforming only as to bulk, shall not be added to or enlarged in any manner unless such additions or enlargements thereto are made to conform to all regulations of the district in which it is located;
 3. *Nonconforming single-family dwelling*: A single-family dwelling which is nonconforming due to zoning bulk control regulations (setback, lot coverage ratio, height, lot width, lot area) may be modified as outlined in the following table, provided all alterations and additions thereto conform to all regulations in the district in which it is located:

	Lots Less Than 50 Feet In Width Or Less Than 6,534 Square Feet In Area		Lots With A Width Of At Least 50 Feet And With At Least 6,534 Square Feet In Area	
	Prohibited	Permitted	Prohibited	Permitted
Alteration:				
Class I		X		X
Class II	X		X	
Class III	X		X	
Addition:				
Class I		X		X

Class II	X			X
Class III	X		X	
Accessory structure		X		X

4. *Existing nonconforming lot coverage:* An addition above or within the perimeter of an existing structure that has an existing nonconforming lot coverage shall be permitted provided:

(a) The existing lot coverage ratio does not exceed 25 percent;

(b) The existing front perimeter wall projects no more than five feet into the minimum required front yard setback for the zoning district;

(c) The existing side perimeter walls project no more than two feet into the minimum required side yard setback for the zoning district;

(d) The existing rear perimeter wall projects no more than ten feet into the minimum required rear yard setback for an interior lot or no more than 15 feet for a corner lot;

(e) That the sum of the first floor area and the second floor area not exceed the equivalent of a 40 percent lot coverage ratio; and

(f) The addition or alteration is permitted in subsection (B)3. of this section;

(F) *Restoration of damaged single-family dwelling on standard sized lot:* In the event that a single-family dwelling located on a zoning lot which meets the requirements of this title is destroyed or damaged by fire or other casualty or act of God, the bulk requirements of this title shall not be applicable to the restoration or reconstruction of such single-family residence provided the restored or reconstructed dwelling is within the limits of the original foundation and original building height;

(G) *Discontinuance of use of nonconforming building or structure:* A building, structure, or portion thereof, all or substantially all of which is designed or intended for a use not permitted in the district, or which use is permitted only by the granting of a special use permit in the district in which it is located, and: 1) which is vacant, unoccupied, or not used on the effective date of this title and remains vacant, unoccupied, or not used for a continuous period of 180 days thereafter or 2) such a building, structure, or portion thereof which becomes vacant, unoccupied, or not used after the effective date and remains unoccupied, or is not used for a continuous period of 180 days, shall not thereafter be occupied or used except by a use which conforms to the use regulations of the district in which the building or structure is located;

(H) *Change of use in nonconforming building or structure:* The nonconforming use of a building or structure may be changed to a use permitted in the district in which it is located.

NOTICE OF PUBLIC HEARING

David and Allison Neill, owners of the property at 689 Lake Road, are requesting a public hearing for a variation in accordance with Section 10-10-12 of the Glen Ellyn Zoning Code. The Glen Ellyn Zoning Board of Appeals will conduct a public hearing to consider the variation on **Tuesday, November 13, 2018** at 7:00 p.m. on the third floor in the Civic Center, 535 Duane Street, Glen Ellyn, Illinois. Anyone is welcome to attend.

The property owners are requesting approval of a variation from the Glen Ellyn Zoning Code as follows:

1. Section 10-8-6(B)4 – to allow the construction of a second story addition over an existing non-conforming attached garage which will have a rear yard setback of 29.1 feet in lieu of the required 30 feet.
2. Any other zoning relief necessary to construct the project as depicted on the plans presented or revised at the public hearing or at a public meeting of the Village Board.

The property is zoned R2, Residential District, and is legally described as follows:

LOT 2 IN LAKE ROAD RESUBDIVISION, BEING A RESUBDIVISION OF PARTS OF MAR-DELL, HOBSON'S RESUBDIVISION, RAHR'S DIVISION AND WASSELL'S CRESCENT BOULEVARD SUBDIVISION, GLEN ELLYN, ILLINOIS, IN SECTION 11, TOWNSHIP 39 NORTH, RANGE 10, EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT OF SAID LAKE ROAD RESUBDIVISION RECORDED SEPTEMBER 24, 1958 AS DOCUMENT 896062, IN DUPAGE COUNTY, ILLINOIS.

P.I.N.: 05-11-216-040

Plans related to the proposed project are available for public review in the Planning and Development Department, Civic Center, 535 Duane Street, Glen Ellyn, Illinois. If you have questions, please contact Kelly Purvis at (630) 547-5371. For individuals with disabilities who have questions regarding the accessibility of the meeting or facilities, please contact the Village at least 24 hours in advance of the meeting at (630)469-5000.
